

Predictive Dialing Module

Predictive Dialing Interface Can Automatic Your Collector Contacts

Contract Collector has many powerful collection features only found in expensive collection software. To further enhance the productivity of your collectors, Contract Collector interfaces with the #1 ranked predictive dialer in the industry, SmartDial™ by Information Access Technology. This real-time integration allows the dialer to do the work of dialing the accounts and will automatically bring up the account in the Contract Window for the Collector when the connection is made. Triple your productivity without adding additional personnel.
