

CONTRACT COLLECTOR v5

WORKSTATION INSTRUCTIONS

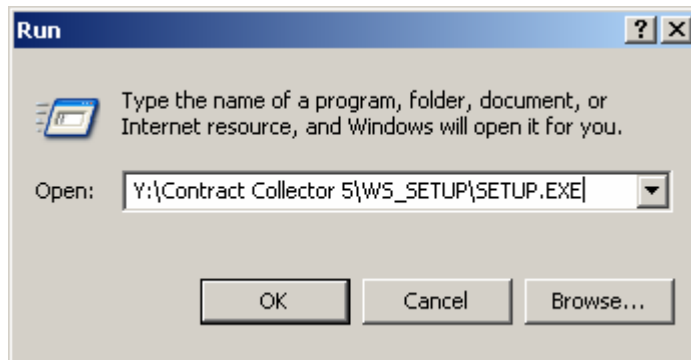

System Requirements:

- Please refer to the program manual or our website at www.GravecoSoftware.com for specific hardware and operating system requirements.
- Necessary Disk Space: Minimum 100MB of **free** space.
- The “**workstation**” must be able to access the program directory from the “**server**” on a shared network drive. (Workstation being the computer trying to access the program and Server being the computer the program was fully installed on.)
- On the workstation you will need to map a drive letter to the program files directory on the server where the **Contract Collector** software is installed.

Windows & NT Installation:

1. It is recommended that you exit **all** programs before continuing with the installation.
2. Click on the Windows **START** button and then on the **RUN** option.
3. On the “**workstation**”, type in the location of the workstation setup file, which is located in a folder named **WS_SETUP**. This folder should be located in the program installation directory on the “**server**”.

Example: Y:\Contract Collector 5\WS_SETUP\SETUP.EXE

4. Click **OK**.
5. Carefully read and follow the instructions in each of the setup windows that appear.
6. After the installation is complete, a Contract Collector shortcut icon should be available on the workstation Desktop. You may also access the program by going to **START | Programs | Contract Collector 5** and click on the **Contract Collector 5** shortcut.

****IMPORTANT**** Please verify that you are using the right installation by either checking your data or by checking the directories in the System Information Window in the program. ***If you are not sure of the location of the Workstation Setup file, please contact your network technician.***

If you are having problems running the installation please contact Technical Support:
